---

Hi Angela,

Here is a updated tweak.

EPA Region 6 is providing support to TCEQ for drinking water (DW) and wastewater (WW) system assessments. There are 10 members at TCEQ Austin phone bank including one assisting with data flow. In addition, DW and WW assessment teams are currently set up in Houston, with additional members arriving this week. Current response activities consists of six (6) members from EPA Region 6 conducting DW or WW assessments in Houston. Also two (2) members are providing assistance to the City of Beaumont in coordination with TCEQ, with their home base in Houston. In the next day, there will be seven (7) from EPA Region 7, one (1) from Region 2 to form additional DW and WW teams for conducting field assessments in the Houston Bravo branch.

Angela, here is the write up. Thank you Jatin for your help

~~EPA Region 6 is providing support to TCEQ for drinking water (DW) and wastewater (WW) system assessments. There are 10 members at TCEQ Austin phone bank including one assisting with data flow. In addition, DW and WW assessment teams are currently set up in Houston, with additional members arriving this week. Current response activities consists of eight (6) members from EPA Region 6 conducting DW or WW assessments in Houston. Also two (2) members are providing assistance to the City of Beaumont in coordination with TCEQ, with their home base in Houston. In the next day, there will be seven (7) from EPA Region 7, one (1) from Region 2, and one from EPA HQ arriving to form additional DW and WW teams for conducting field assessments in the Houston Bravo branch.~~
